University Grants Commission (UGC) recently released a list of 24 clone journals that are allegedly operating online on the appearance of the original and are believed to have misguided the entire research community for an extended period. This article listed the cloned journals in Group I and Group II of UGC CARE-approved [journals](#).

What is a cloned journal?

Clone journal web pages are a counterfeit mirror of an authentic **journal** that exploits legitimate journals' titles and ISSN with slight **variations in text, numbers, or website URL**.
